PACKAGING

A round closed-head drum, lined with food grade resin and headspace filled with nitrogen.

Net Weight:	210 kg
Gross Weight:	226.8 kg
 Typical Packaging Dimension: 	0.257 m³

STORAGE AND HANDLING

Anhydrous Milkfat may be transported and stored without refrigeration. However, the storage life will depend on the storage temperature. To maintain quality, it is recommended the product is stored in a cool dry area away from direct sunlight. Provided the seal is unbroken and the above storage conditions are followed, the milkfat will be suitable as a dairy ingredient for 24 months from the date of manufacture.

Store in a cool, dry place

Handle with care

TRUSTED QUALITY

COMPLIANCE:

Compliance to Codex STAN 280-1973

Our manufacturing facilities adhere to the highest global standards in food safety and quality, verified though regular internal and external audit programs and accredited with FSSC22000 certification.

Our products and ingredients are tested throughout the supply chain, from milk collection through to final product release, using internationally recognised test methods to verify quality and compliance.

Our products are securely packed in food grade packaging and labelled to enable full trace back, so you can trust in the knowledge it was made with care.
