

BROWSER CHECK

- The GDT Public Website

Using an unsupported or outdated browser may lead to login issues, display errors, or system malfunctions, especially during a Trading Event.

USING WI-FI AND MOBILE DEVICES

We recommend using a reliable internet connection when bidding.

Public Wi-Fi networks, such as those in cafés, airports, or hotels, and some mobile data connections may be slow or unstable. This can affect your ability to stay connected to the bidding site during a Trading Event.

For the best experience, use a private and stable internet connection, such as your home or office Wi-Fi.

If possible, connect directly to the internet rather than through your company's VPN, as a VPN may affect connection speed and performance.

使用 WI-FI 和移动设备

我们建议您在参与竞拍时使用稳定、可靠的网络连接。

公共 Wi-Fi 网络（例如咖啡馆、机场或酒店提供的 Wi-Fi）以及部分移动数据网络可能速度较慢或连接不稳定。这可能影响您在交易活动期间与竞拍网站的连接。

为获得最佳体验，建议使用私有且稳定的网络连接，例如家庭 Wi-Fi 或办公室 Wi-Fi。

如果条件允许，建议直接连接互联网，而不要通过公司 VPN 访问竞拍网站，因为 VPN 可能会影响连接速度和系统性能。
